

eAuction Savings Report

Every quarter, Scanmarket reports on statistics covering insights into the savings performed by eAuctions executed globally.

The statistics are provided for procurement professionals who wish to better understand and optimize their businesses to achieve higher savings and efficiency.

Scanmarket has been reporting these statistics each quarter since 2006, and they continue to be a highly valuable data asset to gain insights into categories and strategic sourcing trends.

Q4 2021 Commentary

Volume

Q4 of 2021 saw an increase of almost 37% on the number of auctions conducted in the same quarter of the previous year. This is incredibly significant given the nature of the previous year when so many organizations emerged back into the market following months of economic shutdown from the pandemic.

Savings

Savings in Q4 of 2021 were heavily impacted by the ongoing effects of hyper-inflation across major worldwide economies, but overall savings remained positive at 1.22%.

Categories

At a category level, Services remained the most auctioned category once again with average savings of 8.61% in Q4 of 2021. Significant savings were also realized within Iron & Metals at 9.71% and office supplies at 11.37%. The toughest categories for savings observed in our top 10 most auctioned categories were Food Production with -8.74% and Industrial Machinery with -5.45% vs. current price.

4TH QUARTER 2021

The average savings realized in Q4 dropped to a level of 1.22%, coming from a savings of 3.31% in Q3. Compared to Q4 of 2020 we also see a dramatic drop from 6.02%.
